FRANK E. HOWE, Editor and Pub.

Thursday, August 31, 1916.

Because of the war in Europe America this year is to be the market for the greater portion and the better quality of the bulbs from the gardens of Holland. September is the best planting month and lovers of the beautiful flowers that brighten the gardens during the early days of spring should now begin planning for their fall planting. If the bulbs, the tulips, hyacinths, crocuses, daffodils and iris are planted early in the month an opportunity for root growth is given that will add materially to the vigor of the plant and flower next April.

Through the unloading of the Chicago speculators the first of the week wheat prices took a drop of ten to eleven cents on the bushel. Because they have no room to store their surplus the Minneapolis millers are going to shut down their plants. Flour is costing the ultimate consumer close to \$10 a barrel and there are no prospects that the price is going to be any lower. Organized bakers are endeavoring to boost the cost of a loaf of bread. There once may have been such a thing as a law of supply and demand but it apparently fails to apply to present day methods. Raising the price appears to be about the only solution advanced in our industrial and economic problems these days.

After tonight a Bennington trout fisherman will have to go a long way from home if he wishes to again use his fly rod during the year 1916. In fact he will have to make the longest possible straight line journey in the state of Vermont, to the Little Averill and Great Averill ponds in the northeastern corner of the state. In that locality he is privileged to continue the sport for another month. For all other waters the trout season closes two hours after sundown tonight. The present season in this section has been one of the best in years. Fishing in the streams of Bennington county has been excellent from the opening day right up to the close. This condition has been due to two factors, the persistent stocking of recent years backed by the united interest of the sportsmen and the more than usual rainfall.

**Melvin's Not Daring to Form.**  
Stuffy Melvin, the Athletics' star first baseman, is down in the depths of a real batting slump. For six years, including last year, he has batted well above .300. This year so far he has been hitting under .300. He is not the only one of the older stars who have hit the slide this year. His former teammates of that \$100,000 infield also belong to the Slump Bros' aggregation.

**Fair Drivers May Race.**  
Promoters of the Labor Day auto races at the Sheephead Bay speedway, New York, are seriously considering staging a race for women drivers. Mrs. Nina Boney, a fair speed demon from the south, has issued a challenge to women racers, and she hopes that a race for her sex can be arranged.

STANDS FOR MORE SCHOOLS.

Also Maintains That Two Extra Years Added to the Heavier Four or Five That Most Children Get Would Greatly Increase Average Intelligence.

At a conference of the National Congress of Mothers held in New York City in connection with the recent convention of the National Education Association Miss Maria Locke, chief of the Kindergarten division of the United States bureau of education, said: "Those who are familiar with the fact that there are nearly a thousand

MISS MARIA LOCKE.

Kindergartens in Greater New York and that most of the large cities have adopted them may be surprised to learn that throughout our country only 11 per cent of the children are in kindergartens, making 89 per cent still unprovided for. In other words, 500,000 children are receiving this training of whom nearly 4,000,000 are deprived. In a country which stands for equal privileges for all it is manifestly unfair that a few should be enjoying this educational advantage, while the large majority have to go without it.

"A short time ago we wrote to all the civilized countries of the world asking what they were doing for the education of their little children, and we found that Belgium had made the greatest progress, more than a half of all its children between three and six years of age were in kindergarten. Numerically, Belgium is now a small nation, one of the smallest, but as we think of this afflicted country let us not forget that it is the quality of a people rather than the quantity that is important and that education, especially education given in the early formative years, is one of the most influential factors in the making of quality."

Miss Locke pointed out the fact that the children of our own country spend on an average only a little more than five years in school, and in some schools less than four years, particularly that two extra years added to this meager four or five would greatly increase the average intelligence of our people.

**How to Combine Tasty Relishes and Sauces With Different Meats.**

With roast beef, tomatoes, grated horseradish, mustard, cranberry sauce, pickles.

With roast pork, apple sauce, cranberry sauce.

With roast veal, tomatoes, mushrooms, boiled onions.

With roast mutton, currant jelly and caper sauce.

With boiled mutton, boiled onions, caper sauce.

With boiled fowls, boiled onions, lemon sauce, cranberry sauce and jellies.

With roast lamb, mint sauce.

With roast turkey, cranberry sauce and currant jelly.

With boiled turkey, oyster sauce.

With roast goose, apple sauce and grape or currant jelly.

With boiled fresh mackerel, stewed gooseberries.

With boiled haddock, white cream sauce, lemon sauce.

With boiled shad, mushroom sauce, parsley or egg sauce.

With fresh salmon, green peas and cream sauce.

Pickles are good with all roast meats—in fact, with all meats. Lemon juice is a grateful addition to all kinds of fish. Spinach is the proper accompaniment to veal; green peas to lamb. Potatoes are required with all kinds of meat. With fowls they are never missing.

**Diet and Morals.**

Famous dietitians and doctors who have given careful study to foods and their effects upon the morals and disposition of human beings and authorities claim that they can determine the character of food eaten by the physical organism. This being true, it behooves us in the interest of our right to beauty, to confine our diet to such foods as are the allies of beauty and not its demonstrated enemies.

**Always Room For a Good Man.**

There are never any vacancies in a well-conducted business, but there's always room for a good man. It is true of all kinds of business. The whole world is full of places for a good man.

The practical question confronting every young man is not: Is a big job ready for me? But: Am I ready for a big job?

Particularly in these days of abundant employment, there is no good reason why any man who wants a good job should not have it. If he is good for it. But don't swell up and wait for big jobs to come after you with a brass band. People will not take you at your own unsupported estimate. You have to show them.

Lots of us envy the man in high place, thinking we could fill it as well as he does, if we could only get up to it. It's up to us to work up to it as well as he did. Ninety-nine men in a hundred think they each would cut a fine figure if only they could be picked up and set upon a ready-made pedestal. But nobody's in the business of making pedestals for others to stand on. Each must make his own.

Men's abilities are measured, and rewarded in accordance with what they think they could do if somebody else would give them a chance. Most all of the men in the world who have amounted to much never had half a chance until they made it themselves. And some of them made it out of mighty little material.—Butland News.

**Beware of Ointments for Catarrh that Contain Mercury**

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, O., by F. J. Cheney & Co., Testimonials free.

Sold by druggists. Price 50c per bottle. Take Hall's Catarrh Pills for constipation.
